Saturday.

Dear Mr. Weisberg,

Just went by the address on the book. Hear you are (?), Frackam, is having trouble with birds. Hope they solve the problem without harming them.

Hell! Had a week of violent headaches — after all my reading — if it's related I don't know. Went to a hospital's doctor. He asked if I was depressed — so I told him. Now there's another person in Ellsworth who thinks I'm a book. Anybody interested in absolute truth (+ justice) is these days. Very discouraging to say the least!

I thought you'd probably have known of the U. guesses, but thought it might help.

Hey! Heard that there are lawsuits — you're right — I never knew of them —

Couldn't you get any reporter to cover it — how about the Today show?

Have you contacted the Committee on Assassinations? Think it's in Cambridge, Mass. (Know it's Mass.) Shouldn't there be some sort of centralized gathering place for all the info? Seems it would stand a better chance that way. Realize that each student has his own theories — but as far as pix and facts + depositions, etc, wouldn't it be wise to have it (or copies) in one place?

Know you try — sure wish I could do more. Have 10 months old boy who means the world to me & can't just take off — also have horses, dog, cat, chickens, etc — so am "tied" in location. When I do get to D.C. again tho I will stop at the Archives myself.

Oh — why doesn't someone hire Itek or some such org. to do studies on the shirt in the altgens picture + Oswald's when arrested. Seems it would be a BIG step to proof. Has it been done?

All good wishes for success — Terry Emmett

P.S. Oh, I'll "log the hits" because if I forget I'll have my eighty as a "year" like Dennis did.
